The District may deviate from the consideration of seniority in the reduction process when a less senior person is the only one qualified for the position involved. The final decision on the distribution of such work will be left to the District.

If a student is found with a medication in his/her possession, his/her record should be checked to determine if the proper authorization is on file. If not, the matter is to be reported to the principal for disciplinary action. The principal may use one or more of the following procedures, depending on the particular situation:

1. Contact the parent and arrange for the parent to submit Form 5330 F1a as soon as possible.

2. Take the medication from the student and keep it in the school office until the completed form has been submitted.
- Y. Dispensing of non-authorized, over the counter (OTC) medication by District employees to students served by the District is prohibited. Where investigation confirms such allegations, prompt corrective action shall be taken up to and including dismissal.
- Z. In order to minimize health and safety risks to student-athletes and maintain ethical standards, school personnel, coaches, athletic trainers, and lay coaches should never dispense, supply, recommend, or permit the use of any drug, medication, or food supplement solely for performance-enhancing purposes.
