STUDENT CENTER HANDBOOK

2024-2025

WELCOME

Welcome to Waverly Community Schools Student Center! Student Center offers before & after school care at East Intermediate School, Colt Early Childhood Education Center (GSRP students only) and a summer program. This handbook is intended to inform you of the purpose, philosophy, goals, policies, curriculum and procedures of the program. Please read carefully and keep it for future reference. Thank you for giving us the opportunity to grow with your child.

Skilled professionals schooled in early childhood and/or elementary education, teach the program. Our teachers are kept informed of current trends in education by attending early childhood workshops and conferences throughout the year.

The philosophy of our program, is to allow the children to learn through play. We give them the opportunity to grow socially, emotionally, physically and intellectually. Our program focuses on academic and social skills, based on the skills necessary for success in Kindergarten and beyond. The children develop positive feelings, establish friendships and increase physical and motor skills when allowed to play. Working, playing and sharing with other children, developing new interests, learning good work habits, developing the ability to follow instruction, as well as establishing self-direction are our basic goals. Our primary task is to develop a well-rounded program to meet individual needs and help each child feel good about him/herself.

Conduct of Daily Health Check

Every day, a staff member should conduct a health check of each child. This health check should be conducted as soon as the child enters the child care facility and whenever a change in the child's behavior or appearance is noted while that child is in care.

The health check should address:

- a) Reported or observed illness or injury affecting the child or family members since the last date of attendance;
- b) Reported or observed changes in behavior of the child (such as lethargy or irritability) or in the appearance (e.g., sad) of the child from the previous day at home or the previous day's attendance at child care;
- c) Skin rashes, impetigo, itching or scratching of the skin, itching or scratching of the scalp, or the presence of one or more live crawling lice;
- d) A temperature checks;
- e) Other signs or symptoms of illness and injury (such as drainage from eyes, vomiting, diarrhea, cuts/ lacerations, pain, or feeling ill).

The caregiver/teacher should gain information necessary to complete the daily health check by direct observation of the child, by querying the parent/guardian, and, where applicable, by conversation with the child.

RATIONALE: Daily health checks seek to identify potential concerns about a child's health including recent illness or injury in the child and the family. Health checks may serve to reduce the transmission of infectious diseases in child care settings by identifying children who should be excluded, and enable the caregivers/teachers to plan for necessary care while the child is in care at the facility.

COMMENTS: The daily health check should be performed in a relaxed and comfortable manner that respects the family's culture as well as the child's body and feelings.

The obtaining of information from the parent/guardian should take place at the time of transfer of care from the parent/guardian to the staff of the child care facility. If this exchange of information happens outside the facility (e.g., when the

child is put on a bus), the facility should use an alternative means to accurately convey important information. Handwritten notes, electronic communications, health checklists, and/or daily logs are examples of how parents/guardians and staff can exchange information when face-to-face is not possible.

Conflict Policy Concerning Parents

Parents are an important part of Student Center. We encourage parents to talk with their child's teacher, the Supervisor or the Assistant Supervisor at any time concerning their child. The Student Center staff take the responsibility of caring for your children very seriously. We realize that you have given us guardianship of your child(ren) for the entire time they are at Student Center. All grievances are to be directed through the following channels:

1. Discuss the matter with the appropriate teacher within ONE week. Usually the concern can be met through an informal conference.
2. If resolution cannot be obtained, the parents and teacher are to schedule a conference time with the Supervisor and/or Assistant Supervisor.
3. If the grievance is pursued, a written grievance is to be directed through appropriate administrative lines. Ultimate decisions will be the responsibility of the Human Resources Department.

Staff and Volunteers

All employees and volunteers working alone with children for more than 4 hours per week at the Waverly Community Student Centers have been cleared through the FBI and the Michigan State Police Comprehensive Background Check (fingerprinting).

2. Assist in activities, especially holiday parties.
3. Make monetary or material donations at the Center.

Pest Management Plan

Waverly Community Schools has adopted an Integrated Pest Management program. Inherent with this are the District's efforts to reduce pesticide use as much as possible. While it may occasionally be necessary to apply a pesticide, this program does not rely on routine pesticide applications to resolve problems. We use various techniques such as habitat alteration, sanitation, mechanical means, exclusion, etc. to prevent pest from becoming a problem. As required by Michigan law, you will receive advanced notice of non-emergency application of a pesticide (insecticide, fungicide, or herbicide), other than bait or gel formulation, which is made to the school, school grounds, or buildings. This advance notice of a pesticide application will be given 48 hours before the application by the following two methods: 1) Posting at the primary entrances to your child's school. The entrances that will be posted are the main entrance and those that have a sidewalk that leads directly to a parking lot. 2) Posting in the common area located by the main office of the school. Please note that notification is not given for use of sanitizers, germicides, disinfectants or anti-microbial cleaners. In certain emergencies, such as an infestation of stinging insects, pesticides may be applied without prior notice to prevent injury to students, but you will be promptly notified following any such application, via the two posting methods identified (above). You may review the school's Integrated Pest Management

program and records of any pesticide application upon request by contacting Kyle Scripser, 517-321-1088 or kscripser@waverlyk12.net. Parents or guardians of children attending the school are also entitled to receive the advance notice of a pesticide application, other than a bait or gel formulation, by first class United States mail postmarked at least 3 days before the application, if they so request. If you would like to be notified by mail please contact Kyle Scripser at 517-321-1088. Please give Kyle or secretary, your name, mailing address and what school(s) your child or children attend and they will put your name on the advance notification by US Mail list.
